

SurePassID One-Time Passcode Fob Tokens Two-Factor Authentication OATH TOTP Token

SurePassID HyperOTP Fob Tokens are durable, strong security tokens that:

- **Reduce costs** by preventing fraud and lowering overhead
- **Secures VPN, enterprise accounts** with a convenient credential that fits on a keychain
- **Delivers compliance** with regulatory requirements like NIST, PCI, HIPAA, FFIEC & TAA

Username and password are no longer secure enough for today's cloud security requirements. With **SurePassID HyperOTP Fob Tokens**, you will **elevate the security level** of your customers or employees and **lower your overall risk** of a security breach.

Button on front, Time-based (TOTP) Token
2-3/8" x 1" x 3/8"

SurePassID HyperOTP Fob tokens are available as a keyfob, single button on the front with 6-digit, Time-based OATH TOTP codes that change every 30 seconds. Deep blue color, tamper and impact resistant case. Countdown timer bars are displayed for the TOTP.
